The TEG Impact

(Year 2024)

SONU SHARMA

Inspirational Speaker And
Leadership Coach

I used to think tech talent was mostly in Bangalore, but after coming here, I realized Gujarat has an amazing force of tech people! The start itself is so powerful that I can only imagine how big the future results will be.

SAVJIBHAI DHOLAKIA

Founder & Chairman
HK Export Pvt. Ltd.

This Tech Expo is important not just for Gujarat, but for all of India. You have provided a space where people can learn how to use technology with emotion in business. I am glad to see this happening at such a large scale here.

CHITRAK SHAH

Founder & MD - Shivaik Group
Chairman - CREDAI Ahmedabad

I initially thought it would be a small event, but seeing the magnitude, I realized the scale. It is an amazing experience to see 5,000 to 6,000 people together at a technology expo here. I have never seen this kind of scale in technology in Gujarat before.

KANAKSINH RANA

Director - GTPL

First time you've shown that there are so many tech companies in Gujarat that are delivering advance tech solutions to international companies. This was not known before to many. Today, businesses want native tech solutions and are getting it. What you've done here, has determined that it is Gujarat's time to lead the future of tech.
